

Preparing for Your Consultation

Welcome to Plastic and Reconstructive Surgery Associates. Dr. Vincent Lepore and his staff look forward to meeting and working with you as you begin this journey.

Before your consultation, think about the procedure or procedures that most interest you, or apply to your situation. Please be specific about your hopes and expectations. Dr. Lepore and his staff will be able to discuss various options and possibilities with you. The more focused you can be, the more productive your consultation will be.

Although it's not necessary to bring medical records to this initial meeting, it would be helpful to briefly summarize any conditions you may have, or medications you take, as these may affect surgery.

It is a good idea to have your insurance card available, so staff members may be able to determine whether any coverage is applicable to your treatment.

If you are interested in financing your procedure, we invite you to look into several options in advance. Our office has a number of resources to assist you in financing. The "Patient Resources" section of our website provides access to direct links to several financing companies.

** Please note: if you are planning to have a cosmetic surgical procedure (a surgery that is not covered by your health insurance), a non-refundable deposit will be required to reserve the time/date with Dr. Lepore and the surgical center. This deposit is due at the time you schedule.

If you have any questions, please call and we'll be happy to answer them.
